

Masterflex® E/S™ Peristaltic Pump

The Masterflex E/S peristaltic pump system is an economical choice for basic sampling applications.

- Features a single turn potentiometer for speed control
- Reversible flow
- Runs up to four hours on the self-contained internal 12VDC battery or indefinitely on an AC power supply. Unit includes cables.

Standard tubing for downhole is the .170" x 1/4" polyflo tubing which is sold in 100ft and 500ft rolls.

Maximum lift is 26ft.
