

PROACTIVE ENVIRONMENTAL PRODUCTS®
Stainless Steel Mega-Monsoon® XL
(Lifts 170 Feet / 52 Meters DTW)

REQUIRES:

Low Flow with Power Booster
3 LCD XL Controller

The Stainless Steel Mega-Monsoon® XL pump is capable of pumping up to 170 feet from ground level (DTW)* by simply connecting the Stainless Steel Mega-Monsoon® XL to the [Low Flow with Power Booster 3 XL "LCD" Controller](#), then to a 12 volt deep cycle battery, energizing the pump. Sound Simple? We think so. Its reliable design is perfect for continuous purging of groundwater wells. Proactive's Stainless Steel Pumps are patented for their unique design. Simple to use and extremely powerful!

WATT CONSUMPTION (MAX):	585 WATTS (MAX)
DC VOLT RECOMMENDATION:	12-15 DC (direct current) At Source
AMP CONSUMPTION (MAX):	39 AMPS
MEASUREMENTS:	LENGTH 7.5" / DIAMETER: 1.82"
CONSTRUCTED:	HIGH POLISH STAINLESS STEEL
REQUIRED TUBING:	3/8" ID POLY TUBING
SUPPLIED WITH:	180 FEET OF HEAVY DUTY 10 GAUGE PVC WIRE NEATLY ROLLED UP ON A TUBULAR METAL REEL WITH PUMP HOLDER, 2 MOTOR MODULES, DISPOSABLE LOW FLOW CONTROL VALVE, AND WRENCH
