

Confined Space Tripod Systems

Confined spaces exist in nearly every industry, and many workers come into contact with at least one during the course of their work. According to OSHA, approximately 90 deaths involving confined spaces occur every year. Unfortunately two-thirds of those deaths are workers killed while trying to perform a rescue.

FrenchCreek manufactures top quality rescue equipment, complete rescue systems, and accessories to aid in rescue or recovery, all of which meet or exceed OSHA requirements for confined space rescue.

The FrenchCreek tripod system incorporates a lightweight design that is capable of withstanding 5,000 lbs. of vertical load

System Components

R50G

R50 Series 3-Way Rescue SRL

The R50 series unit is a Self Retracting lifeline, capable of raising and lowering for rescue and retrieval. Upon a fall, the system can be activated into winch mode, for raising and lowering the worker to safety.

- ♥ Rugged, lightweight aluminum housing
- ♥ Dual internal inertia braking system
- ♥ Three lifeline constituents available, see below

R50G
50' galvanized
wire rope

R50SS
50' stainless steel
wire rope

R50T
50' Technora®
synthetic rope

MW50G

MW Series Material Winch

The MW series winches offer raising and lowering capabilities with a friction break that prevents the unit from free-wheeling when under a load.

- ♥ Rugged, steel frame drum
- ♥ Three Lifeline constituents and lengths available, see below

MW50G
50' galvanized
