ProQuatro

TOUGHER. SMARTER. MORE VERSATILE.

The **ProQuatro** handheld multiparameter meter measures a variety of combinations of dissolved oxygen, conductivity, specific conductance, salinity, resistivity, total dissolved solids (TDS), pH, ORP, pH/ORP combination, ammonium (ammonia), nitrate, chloride and temperature.

In addition to its impact-resistant, waterproof case, the ProQuatro has features that make field sampling faster and easier:

User-replaceable cables and sensors

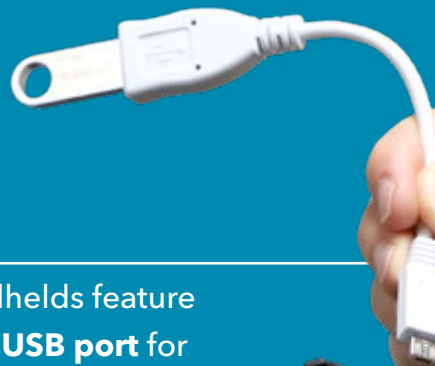

Real-time salinity compensation of DO measurements

Quick response times

ProQuatro handhelds feature a built-in **micro USB port** for simplified access to your data in the field or the lab.
